ROLESHARP 2.0 / DESIGN DIRECTION

Evidence, made visible.

A calm, precise career workspace. Every screen makes the source, the reasoning, and the next safe action clear.

01 • EVIDENCE

Show the source.

Metrics, target role and evidence remain legible—not hidden behind generic AI output.

02 • EXPLANATION

Explain the signal.

Scores name what changed, why it matters, and what needs review before action.

03 • CONTROL

Keep the applicant in charge.

No implied hiring outcomes. High-stakes transitions stay explicit, recoverable and reviewable.

VISUAL DNA

A career instrument—not AI decoration.

Warm paper. Navy ink. Evidence rows. One blue action. Amber only for Premium.
